

First, you will need to make a view finder from paper or card.

10 cm by 8 cm inside dimensions

12cm by 10cm outside dimensions

See diagram below

Use your view finder to sketch part of a picture by placing it over the picture that you wish to draw.

You may want to:

Try out one of the pictures below, experiment with your own choice of picture or hold it at arm's length up to the window for a view outside.

We hope that you have fun exploring the different views that you can find!
