

## Nessy

In school we use an online subscription programme called 'Nessy' to support the children with their reading through games. The company have very kindly provided us with 60 days of free access for all of our Key Stage One children.

When you log on for the first time, you select the icon: 'Nessy- reading and spelling'. It will then take your child through several 'games' that are actually assessing their reading level. After this has been completed, it will then provide your child with 'games' at their level which will support them in developing their reading skills.

If this is something you are interested in, please email to request your child's log on information at:
