

This week's Theme is based around: **Food, Glorious Food!**

A special message from my teacher:

Hi everyone, it was lovely to speak to your families last week and catch-up with most of you. I am pleased everyone is staying safe and keeping positive; keep up the fantastic work! I hope you had a lovely bank holiday celebrating VE day from afar! The lyrics of Dame Vera Lynn's song, 'We'll meet again', have never felt more appropriate:

*Keep shining through, just like you always do... 'Till the blue skies drive the dark clouds far away'.*

*I know we'll meet again, some sunny day! ☺*

Dear parents and children,

Please see below the exciting tasks set for this week.

While we have posted a suggested order (we know some people find this helpful) please feel free to pick and choose.

Please remember: your child's well-being is the most important thing to us. You may find that they are more inspired some days than other. Some days they might do no tasks. Other days they may wish to do more than one.

We also appreciate that many of you are likely to be working and juggling child care. So our message is simple, **do what you can and be kind to yourselves too!**

We also value cooking, gardening, cleaning and a wealth of other things you will be doing as families.

If your child would like to share what they have been doing with us please email your photos etc to [Snaith.primary2020@gmail.com](mailto:Snaith.primary2020@gmail.com) (you can also email any questions or concerns to the teachers on this)

If you have any other concerns please do contact school on 01405 860452 or on [Snaith.primary.eastriding.gov.uk](http://Snaith.primary.eastriding.gov.uk)

Some very unusual interactions take place when you mix a little milk, food colouring and a drop of washing up liquid. Use this experiment to amaze your friends and uncover the scientific secrets of soap!</i></p> <ul style="list-style-type: none"> <li>• Watch the magic milk experiment online before testing it out for yourselves:  <a href="https://www.youtube.com/watch?time_continue=2&amp;v=Bq1_fVcji4g&amp;feature=emb_title">https://www.youtube.com/watch?time_continue=2&amp;v=Bq1_fVcji4g&amp;feature=emb_title</a></li> <li>• If you can, try and repeat the experiment with different liquid variables: full fat, semi-skimmed, skimmed milk, cream- even water - whatever you have available at home!</li> </ul> <p><b>Your Task:</b></p> <ol style="list-style-type: none"> <li>1) Predict why the washing up liquid reacts with the solution in this way?</li> <li>2) If you can, try and compare semi-skimmed milk with full-fat milk. Which one works best? Why do you think this is?</li> <li>3) Research this chemical reaction, using the attachment 'Magic Milk Explained!' (pdf on website). Explain how the process works using these terms:  Molecules/ fats/ proteins/ solution / reaction</li> <li>4) Conclude your findings; what have you learnt? Which solution worked the best? What happens if you add more washing up liquid to the solution?</li> </ol> <p><b>Present your findings in your home learning book. Alternatively you could 'vlog' the process and explain your scientific thinking; we'd love to see your videos! You might want to take a collage as a way of recording your results</b></p>
Thursday	RE	<p style="text-align: center;"><u><b>Researching Ramadan</b></u></p> <p><i>Each year for a whole month, Muslims around the world take part in Ramadan, an Islamic festival of fasting (where they are not allowed to eat or drink from dawn to sunset).
